

APPLICATION

- Knowing that God places a great value in you, what can you do in the next days to show your gratitude to Him? Share this with your group.

- What specific steps can you take so you can better see yourself as God sees you? Read the Bible regularly and ask God to speak to you through His Word and make you more secure in Him.

- Think of people around you whom you can share this message with. Pray for them and within the week, tell them about God's love and how God has made them valuable.

PRAYER

- Pray that every person in church will grow in their trust in God and be more secure in Him whenever they face challenges in their lives.
- Intercede that as the church understands how much God values people, this will make believers keen to see through those who are looking for meaning and significance and point them to God.
- Ask God for more boldness upon the church to believe and trust God for abundant provision, answered prayers, and for more people to be reached by the gospel.

VICTORY

Honor God. Make Disciples.

WEEK 2

The Treasure

WARM-UP

- What do you consider your most important possession right now? Why?
- How do you take care of things that you value?

WORD

“The kingdom of heaven is like treasure hidden in a field. When a man found it, he hid it again, and then in his joy went and sold all he had and bought that field.”

Matthew 13:44

We are valuable and the evidence of this is God paying a great price to save us from sin (Revelation 5:9). Here are two reasons why we are of great value.

- **God created us in His own image** (Genesis 1:26,27).
Not only are we God's creation, He chose to create us after His very image. It is the image of God which we are privileged to carry that puts value in us.
- **God chose to make us valuable** (Deuteronomy 7:7,8, Titus 3:5).
Our value is always based on God's goodness, never on us. The people in the Bible have become valuable and are seen by others as such because of the lavish favor God has placed upon them.

**We are valuable because God
our Creator values us.**
